UNITED STATES GOVERNMENT

Memorandum

5230

TO : Recipient of Report on Red-headed pine Sawfly

DATE: March 26, 1969

FROM : D.O.VanDenburg, Field Representative

SUBJECT: Evaluation (Report S-68-12 - Correction in Data)

The following correction of data (page 2)for the Hiawatha National Forest should be substituted for that given in the report.

116 Trees examined

34 Trees with noticeable defoliation

29.3% Trees with noticeable defoliation

This change in the percent of trees with noticeable defoliation from 41.5% (as in original report) to 29.3% does not affect the recommendations given in the Report.
